July 11.

Keep it Before the People.

At the Union Convention of Barnstable, held in February last, the following resolution was reported by a committee of which JOHN VAN BUREN was a member, and was unanimously adopted:

Resolved, That Gen. ZACHARY TAYLOR, by his masterly conduct, his heroic courage, his indomitable coolness and courage on the field of battle, has shown himself to be not only a distinguished military chieftain, but a man of great heart, and a Republican simplicity of character.

The Steamer Senator on the On side Route.

The new and substantial steamer Senator, under the command of Capt. Samuel Seymour, which for several weeks has been running between this city and Portland in connection with the Railroad, a new running through to Boston direct, by the outside route.

On Monday last she commenced her trips on this route, and in going down the river, her speed was very great, and yet without incurring any unusual risk.

She is well adapted to ocean navigation, is well calculated for stowing freight, and is as strong and substantial as a ship. She is strong and substantial as a ship. She is strong and substantial as a ship.

A passenger who came from Boston on the return trip on Wednesday, speaks enthusiastically of the Senator, as a sea boat, as follows:

To all those who wish for one of the most splendid trips in or from Bangor, or to any other of the pleasant towns on the Penobscot River, we would say, by the new and splendid steamer Senator, under the command of Capt. Samuel Seymour, and you will find yourselves on board one of the finest steamers that ever was east of New York.

# Magnetic Telegraph from Portland to Bangor.

The postal telegraph from Portland to Bangor is now being delivered, at different points upon the route, and the work will be pressed forward with all possible rapidity.

Now that the people in New Brunswick will push forward their line to Halifax, in the hope of a very few months, say by the first of December at latest, the communication between Bangor and the principal cities in the Dominion States, will be open.

Mr. Thomas G. Clinton, an accomplished engineer in the Port of New Brunswick, has been appointed to the position of Superintendent of the telegraph line between Bangor and the principal cities in the Dominion States, will be open.
